ABOUT ME

I have recently completed my Master's in computer science at FESB in Split and am currently looking for my first job as developer. My goal is to gain experience and knowledge and learn new things and skills. During my studies, through various projects, I learned to work independently, but also to adapt quickly to teamwork. I always want to learn more and work on my improvement.

WORK EXPERIENCE

2014 – 2015 Sinj, Croatia

Volunteer firefighter DVD Sinj

Volunteer fire brigade on duty during the summer.

Website https://www.dvd-sinj.hr/

2015 – 2019 Sinj, Croatia

Security guard Patronus Primus d.o.o.

Student work as a security guard at various concerts, music and sports events.

03/2019 – 06/2019 Split, Croatia

Apprentice web developer Human Resources Cloud d.o.o.

Getting to know and studying the C# programming language and the .NET environment, followed by the study of the Angular framework, in order to ultimately be able to create a quality project that will include all segments of creating a Web application. By adopting the mentioned technology, I gained the basis for creating the front-end part of the application, which was followed by the creation of a web application with the .NET environment, Microsoft SQL, and the Angular framework.
